

## A Full-Service Salon

catering to the needs of those

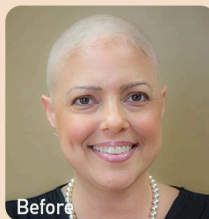

dealing with thinning hair

and hair loss.

Whether your hair loss is temporary, due to medical treatment or long-term due to alopecia, hormonal or trichotillomania, we have a wide variety of solutions including full wigs, partial wigs, integrations and more. Bonne Vie Salon's hair replacement specialist will work with you to help select the best solution for your needs and lifestyle.

## Hair Loss Solutions Include:

- Micro Point Solutions
- Hair Extensions
- Hairpieces (Stock, Custom and Semi-Custom)
- Hair Systems/Wigs (Stock, Custom and Semi-Custom)
- Xfusion Topical Powder Solutions

## The Consultation

Our hair replacement specialist will thoroughly discuss your situation to determine the various solutions. Our prices include your fitting, cutting and styling. Feel free to bring a friend or family member along for support if you desire.

- We offer semi and private consultation rooms
- You will receive a hands-on lesson on how to maintain your new hair system.
- We will instruct you about products and learn why specific products are necessary

If you prefer, Bonne Vie Salon offers professional cleaning and styling for all hair solutions.

## Hair System Facts

Hair systems are available in three materials:

- Human Hair (can be chemically enhanced, moves and washes like your own hair)
- Synthetic (easy to care for and holds it's style)
- Cyberhair (light to wear, feels like human hair, requires no styling, requires only basic maintenance)

## Eyebrows and Eyelashes

We provide custom human hair eyebrows and mink or synthetic eyelashes. Your hair loss specialist will teach you how to apply them or you may come to the salon to have them professionally applied.

### Permanent Makeup

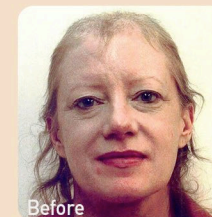

## Custom Makeup and Skincare

It is not uncommon to have major changes in your skin during medical treatments. We educate you on how to use the proper skin care and makeup so you will look your best.
